

# TOOLBOX TALK for the week of January 22<sup>nd</sup>, 2024

## Reminder of Our Safety Focus for 2024

In 2024 it is our goal to reduce all types of incidents by focusing on the following items.

- **PPE**
  - Wearing our PPE, including:
    - Hard Hats with chin straps.
    - Safety Glasses with side shields.
    - Cut level 4 gloves for carpenters.
    - Cut level 2 gloves for tapers and finishers.
    - Fitted half mask respirators for finishers.
    - Cut Sleeves for carpenters when working with metal.
    - All other items as needed for the job.
    - If you are using your personal PPE, it must meet or exceed FSS standards.

Safety audits in 2024 will focus on assuring PPE is being worn properly and that it's listed on our Pre-Task Plans.

- **Communication**
  - In addition to any GC site orientation, a thorough Job Site Orientation will be conducted by the FSS site superintendent each time a worker arrives at a new jobsite.
  - Thorough safety orientation for new hires.
  - Job Site Orientation will include:
    - Reading JHAs that apply to the specific job.
    - Reading any SDS's that apply to the job.
    - Being instructed on job specific PPE
    - Being made aware of any specific hazards that apply to the job.
- **What is your role and responsibility in keeping yourself and those around you safe?**
- **How does your attitude affect your safety and the safety of those around you?**
